

1500W Handheld Laser Cleaning

Machine

Buy discounted handheld laser cleaning machines with free samples made in China. Huawei Laser is a manufacturer and supplier of large-scale laser cutting machines and 1500W laser cleaning machines.

Product Introduction

Huawei Laser is a Chinese manufacturer and supplier of laser cutting machines. It can wholesale laser cutting machines and laser pipe cutting machines. We provide professional services and preferential prices. If you are interested in laser cleaning machines, please contact us. We pursue excellent quality, conscientious prices, and dedicated service.

Model specification identification method

HWLC-1500W
HW:HuaWei Laser
LC:Laser Cleaning
1500W:Power

Product Features Of 1500W Handheld Laser Cleaning Machine

As a non-contact laser cleaning machine, it does not damage the parts substrate, no consumables energy saving and environmental protection, and it can efficiently remove resin, oil, stains, dirt/rust, coating, cladding and paint from workpiece surface to meet the cleaning requirements on complex modeling and fine positioning in the industrial processing field, achieve a higher cleanliness degree of cleaning effect, and the production benefits at a lower comprehensive cost.

Application of Of 1500W Handheld Laser Cleaning Machine

It is mainly used in automotive manufacturing, mechanical processing, electronic processing, cultural relic restoration, mold industry, shipping industry, food processing, petrochemical and other industries.

Technical Parameters of 1500W Handheld Laser Cleaning Machine

Power	1500W
-------	-------

Working Mode		continuous/modulated
working environment	temperature range	0-40°C
	Humidity range	<70% No condensation

Cleaning Samples Of 1500W Handheld Laser Cleaning Machine

FAQ Of 1500W Handheld Laser Cleaning Machine:

Q: Can laser cleaning machines remove paint?

A: Yes. Laser cleaning machines can effectively remove rust, oil, paint, resin, etc.

Q: Can cleaning tests be done?

A: Of course, you can contact us and we will conduct a test cleaning according to your requirements.
